Opener, Break, Close (Sides Face, Grand Square)

A lovely lady in her blue Mercedes
Parked her car down by the sea
She stepped into the sand, took me by the hand
And we traveled away in my dreams (Circle)
I put a pretty flower in her long, dark hair
Left Allemande come back and Promenade
I left my heart in San Francisco
Where she first fell in love with me

Figure

Heads Promenade you go Halfway around
Come down the middle and do the Right & Left Thru
The Sides Square Thru, four hands, you come on down
You make Right Hand Star one time round
The Sides Star Left inside around the set
Swing that corner lady, Promenade
I left my heart in San Francisco
Where she first fell in love with me
